

I just read that XM is under attack by the NAB,I drive a truck from Ind. to Calif. ever other week and I listen to the Weather Channel EVER day.Can you please tell me why everytime a service is provided to help either the cars or trucks there is always that few that want to take that service away??Also,I'm sure there are hundreds of truckers that listen to the Traffic Channel to help detour AROUND traffic jams,that in itself should keep you happy and leave well enough alone. Why don't you spend your time attacking the trashy sitcoms??
